- Indeed

Certifications

- [IBM Data Analysis - IBM](#)
- [AWS Cloud Practitioner Essentials](#)
- [Salesforce Trailhead \(50+ Badges\)](#)

- Maintain candidate records, recruitment pipelines, and hiring status using the Applicant Tracking System (ATS).
- Collaborate with senior recruiters, account managers, and clients to ensure timely submission of qualified candidates.

Projects

Sales Forecasting & Business Performance Analysis

- Analyzed multi-year sales datasets to identify revenue trends, customer purchasing behavior, seasonal patterns, and business growth opportunities using SQL queries and Python-based analysis techniques.
- Built forecasting models using Python, SQL, and data analysis libraries to predict future sales performance and support data-driven business decision-making processes.
- Designed and developed interactive KPI dashboards in Power BI to track sales performance, conversion metrics, and operational insights, improving reporting efficiency by 35%.

AI Voice Agent Interview Platform

- Developed an AI-powered interview workflow automation platform using modern web technologies and OpenAI APIs to streamline candidate interaction, interview preparation, and evaluation processes.
- Automated candidate communication, interview question generation, response analysis, and evaluation workflows to reduce manual effort and improve operational efficiency during interview processes.
- Tools Used: Next.js, React, n8n, OpenAI

Extracurricular Activities

Leadership & Activities

- Coordinated technical and business events involving cross-functional teams.
- Participated in business case studies and analytics projects.
- Collaborated with peers on customer-focused and process improvement initiatives.
- Active member of professional networking and learning communities
- Student Coordinator, IEEE Club 2024 — Organized technical activities and collaborated on student innovation initiatives.
- Active participant in technology-focused learning communities and project-based development activities.
